ad the words came in a sharp group which is terrible to hear from the lips of a strong man. The tories roused her at once into a full con-sciousness of what had befallen them, and of

Then the conductive to the care to the waves went over her but one moment, and then Mary Malcolm forgot herself, and rose up to the height of her true womanhood—to the capture of the sept. heart for a moment; but he expected to see her almost stricken to the earth, with the first tidings of the ruin of the house in which he was the neaviest partner. He knew that her youth had been nurtured in all the grace and inxury that wealth confers, and he feared the thought of go-ing into the chill and darkness of poverty. He had not looked for load huneritations, or bitter reproaches, but he dreaded the silent tears, the mute despair of the white face.

So John Malcolm raised his hot face, stained with the tears that were shed for her sake, and new sacredness and beauty to her husband's eyea smile so sweet and tender to him, so brave
and defiant for the worst the world could do

Hearing these words, John Malcohn tooked at his wife; but he did not say then what was in his heavt—a thanksgiving to God for the angel He had sent to walk with him. He took her hand and held it close in his while he told her of a temptation which had beset him before the failure of his house became certain—a temptation by yielding to which he could have saved himself from failure. But it must have been by dishonest means by taking advantage of others in his power—in short, by a fraul which though man's laws never could reuch God's did with that eternal, "Do unto others as ye would they should do unto you."

PROURESS OF THE WAR.

When the history of this war comes to be written, it will be found to be, in many respects, gigantic in all its proportions as to dwarf the brought into comparison with it. The vast reosom of this country, have astonished ourselves, almost as much, as they have astonished the world at large-resources, too, developed by the enforcements of no crowned tryant-but 'arising from the free will offerings of a generous and patriolic people. Has the Government needed men? They had but to make their wishes known; and a million of men have rushed forward to uphold the national standard. Did they require money? The people nobly responded to this requisition, and six hundred millions of dollars have been placed in the National Treasury one hundred millions of which were a gratuity. This money has been raised upon the bunds of the Government, without the help of any other nation in the world. Nor do our resources end here. Our agricultural products are on an equally large scale and while we are confending with one hand against the most powerful rebellion ever waged against any Government, with the other we are feeding the starving of other lands, and from this granary of the world, sending forth the means of life to save from famine the suffering poor of nations who are now throwing the weight of all their sympathies in the scale against us. Such is our condition in some respects. But

more wonderful still is the aspect of this wer, when viewed in relation to its progress, and the manner of its conduct. More than a year has now clapsed, and yet there has not been much accomplished. Three hundred thousand of our brave soldiers have either been killed, main al or broken down for life, and five hundred millions of dollars used up. Still we delay. If any of these delays are the result of mismanagement in the Quarter-master General's department, or in that of the Commisariate, it is high time that it was remedied. Commanders have been changed time and again ; men and means have been supplied to a wonderful extent, and still we the word Newport is spelled , Newbort, and in the how hear a talk of "winter quarters" for the د. او استونیا م<mark>نسسته اینسساس</mark>یه gram that the army were actually hibernating, we should not be surprised. Truly we are a patient people, and in view of all the facts, we may indulge in a little self-complacency, at the crisk of being charged with the two Johanies "over the waters," with self-conceit, and say further, that we are a wonderful people, and that this is "a great country."

reached Falmouth on the opposite side of in Fort Adams. "Sorry for you; good bye." the river, where they were delayed for want of bridges. This gave the rebels time. On the 21st. Gen. Summer sent a demand for the surrender of Fredericksburg, at 5 o'clock, p. m .-This not having been down, the time was extended to sixteen hours later, and so on, until now Eredericksburg is not surrendered. Now cle of acquaintances. She was a member of the

ing rain that rendered their tents untenantable. Fisk of their decimation by exposure and fatigue, without accomplishing anything, is indicative of something wrong, somethers. Tet amid all these repinings, let us "take fast hold" of hope—the last to desert even the most despiting. And we do have hope, yea, and faith that soon a brighter day will burst upon faith that soon. We hope in Burnside, we hope in Congress. We believe the retellion will be crushed, and that soon. We hope in Congress. We believe that we shall again become a glorious brotherhood of States. We believe that our sun shall again emerge from the concealing clouds, and that week, and alls himself John Williams has been arrested in Paythtecket, clarged with passing one of them. Two men were also arrested during the world's exposure in the pathway of human progress and human freedom. There is too evident a Providence in the research of the same counterfold bills and progress of the same counterfold bills and progress and human freedom. There is too evident a Providence in the research progress which is not in the pathway of human progress and human freedom. MISTAKES -- In a recent article, we noticed the the most remarkable one on record, and is so fact, that in a recent issue our neighbor of the Providence Press, an item in reference to the proportions of any other war that may be probable detalection of the City Treasurer of the City of Providence was placed so closely in consources which it has developed as reposing in the lact with the Newport items that some people had confounded the two, and were led into the error that our own Treasurer had fallen short. In Saturday's Issue of the Press, the Newport correspondent has the following item.

Pur Him Our.—If there is a single individual in Nombort who has arrived at the years of under-standing and yet is so beetle-headed as not to be able to distinguish in a newspaper item between the Ohy Treasurer of Providence and the State Treasurer of Rhode Island, he deserves to be transported beyond the bounds of civilized society. Now friend Pearce, you are a little fast in this implication. No one made the mistake of confounding the City Treesurer of Providence and the State Treasurer of Rhode Island, but the City Treasurer of Providence and the City Treasurer of Newport. And to show how liable, the juxta position of the items referred to, was, to lead to this error, we quote from the Press of Friday, to show also that all the "beetle headed" ones don't reside in this vicinity. The Press of Friday says The Manageket Patriot says that "a deficiency of \$17,000 has been discovered in the monants of the Tresniver at Newport," which much be a mistake;

The treasury deficiency is in Providence. Now the Woonsocket Patriot, it seems, m ade this same mistaks by reading the item in the Press, be rond a doubt, and thus evinces the liability to error from the arrangement to which we alludedan error of course, we admit; that would arise from a rather inattentive or cursory perusal, but still quita a probable one.

In an item of the Saturday's Issue of the Press there is an allusion to a typographical error in our issue of Friday, in which Internal Revenue is made by the compositor to read Infernal Revenue, and which was everlooked in the proof. The following s the manner in which the Press notices it:

A CLARK FOR THE PROPOST MARSHAL.—The New port News, in asking attention to the Assusors notice calls it "Inferrial Revenue." That certainly must be treasonable. One of the subtenue oppaatments in Fort Adams would afford secure retection. Serry for you; good bye.

Now gentlemen of the Press, although this all in good natured way, yet we must call your attenion to the fact that in both your items quoted there are typographical errors, for we have printed them verbation of literations. In the item from Newport, one above, the word anartments, is spelled stonement for our prior in the Revenue business which we hope will fully save us from the "ap pastments" in Fort Adams." At all events, brethren of the Press, let us learn not to throw stones while our own windows are not secured-"They who live in glass houses should not thron stones," is an old adage and a useful one. We commend it to your consideration, brethern. good hoys, and don't throw any more stones until The Federal forces having held Aquin Creek, you are in some safe place like the "appaalments"

Burnside as a Boy and as a Business Man. The N. Y. Evening Post says that when a mainber of the present Cabinet was in Congress he received a letter from a boy, without any accompany ing recommendations, asking for an appointment as a cadet at West Point. The application was disregarded as probably the forwardness of a stripling, only anxious for an education at the public expense. Happening a short time afterwards to be in the little village out West whence the letter was unailed, he remembered the incident, and after inquiries, found the ambitious youth, in the form of t tailor's apprentice, in a shop on the outskirts of the town, sitting crosslegged upon the beuch, mending an old pair of pantaloons. FROM THE POTOMAC.

NEW YORK, Dec. 1. A dispatch from Fairfax Court House, states that Gen. Stahl made a reconnoisance as tar as Upperville, satisfying bineself that Jackson had passed southward. Saturday night be encountered llarge rebel force of cavalry at Snicker's Ferry, putting them to route and capturing their colors.-Eighty horses and a large amount of ordnance and commissary stores,—also eighty cattle, were taken. The enemy retreating, Gen. Stabl pursued them to Burryville, where he broke up their camps and chased the rebels within four miles to Winchester. All of White's officers, and some forty privates were captured. Their loss was fifty killed and wounded. Gen. Stabl would have pursued the onemy but for the condition of the horses after so long a ride. The loss on our side is fifteen

killed and wounded.

NEW YORK, Dec. 1. The World's Falamath dispatch of Studay says, that it is reported by two rebet describes, that Gon. Leo is in command of the rebel forces opposite us,-that yesterday they began to retire on Richmond, and last night a large force of the encmy were engaged in tearing up the railroad track. for fulling back, he notified the citizens of Fredericksburg, that if by any indication whatever, they gave information of the movements that were going on, he would burn the town.

REBEL WORKS.

A close inspection of the enemy's position yes terday showed them busily engaged on lines of works probably as foints to conceal their real move-They abandoned their first line and were yesterday concentrating a second line further from the river, connecting their redoubt by traverses and they had a very large force at work. The bridge over the Rappahaunouk was communiced and prosecuted under the protection of heavy guns.

THE REBELS WANT AN ARMISTICE NEW YORK, Dec. 1st.

The Herald's disputch from headquarters dated Sunday contains the following. Considerable excitement has been occasioned by a report that has been circulated here that a proposition has been made by the rebels for an armistice of thirty days and that Gen. Lee was already in Washington arranging terms of agreement. No credence is put in the rumor however.

REREL MOVEMENTS.

The rebels are working with redoubled vigor on ortifications and their cavalry have of late been ery active and captured a number of our pickets along the fords of the river. Longstreet commands the right and Hill the left of the rebel forces cofronting us. Deserters coming within our lines report that a large body of their forces have been letached and sent off to Richmond to reinforce Stonewall lackson. Our cavalry have captured a number of rebels along the river below this place. Trains can be heard at all hours running on the Fredericksburg Railroad and coming to within a short distance of the city. There is considerable forage in the country below here. On one form near our encamparent are 75 stacks of grain, a quantity of corn and quite a large herd of fine beef cattle, the property of an officer in the rebel

INSPECTION.

This morning there was a general inspection cavalry with the view of detecting and punishing such officers as have not paid proper attention to the condition of their horses.

PERPLEXITY OF THE REBELS.

The rebels are evidently very much perplexed and undecided as to what course to pursue to meet the difficulties which environ them and which it is not beleived will decrease as the campaign progresses.

STONEWALL JACKSON RETREATING. NEW YORK, Dec. 1st.

A Harpers Ferry disputch of Sunday states that we have news from Stonewall Juckson's Head quarters by three different messengers to Salurday morning. Jackson is in full retreat horse foot and artillery. At sunrise on Friday he continued efrogade movement from Winchester passing through Strasburg. On Friday afternoon an Saturday morning his year geard and himself pass ed through Woodsteck and his whole colours was noving steadily up the valley turnpike. By forced marches his command was progressing, from 20 to 25 miles daily. He was moving towards Gordonsville by Harbisomburg and Staunton. Yesterday the last of the rebel cavalry pickets were withdrawn from our front. To-day the coast is entirely dear. Every indication of Stonewall's retreat this time is real. He has failed to draw our Generals into a suare.

on the outskirts of Frederickshurg. They are throwing up earthworks nearer town and that four or five separate forts are already completed and ready for gams which had not been mounted on Friday morning. The rebels are evidently preparling for an obstinate resistance.

Published by DR. O. PHELPS BROWN.

The prescription was furnished bim in such a providential manner that he cannot conscientionsly refuse to make it known, although he never was a believer in Chairvoyanee, spridmalism, Pschycology, &c. This remarkable remedy has coned everybody who has tried it, never failing in a single case. It is equally sure in cases of Fits as of Dyspepsia; and the ingredients may be found in any drug store. Those who are afflicted with Consumption, Brunchild, or Astimar, may also be curred by the use of my Herbal Preparations, which have charged with electro-magnetic properties, and an agree or aromasic almosphere is continually emanating from them, in consequence of the positive and angotic repulsion of its atomical electro-magnetical principles, threeby rendering their efficacy truly wonderful in all cases of Lung Complaints.
